Hands-on Data Science and Machine Learning Training

Setting up a nanoHUB account and generating API keys for databases

In this tutorial:
• Login to nanoHUB
• Generating API keys for user

The nanoHUB team
strachan@purdue.edu
School of Materials Engineering & Birck Nanotechnology Center
Purdue University
West Lafayette, Indiana USA
STEP 0: Online session instructions

- Please join your session on time, a few minutes BEFORE the start time.
- The sessions have a large audience. To improve bandwidth for everyone and help us serve you better, please turn off video and mute yourself as you join the call.
STEP 1: Signing up for a nanoHUB account
STEP 2: make sure you can launch a tool

From your browser go to link: https://nanohub.org/tools/matdatarepo/

Click Launch Tool
