Order the items from largest to smallest.

1. thickness of a penny
2. nucleus of an oxygen atom
3. diameter of a red blood cell
4. height of a typical 5-year-old child
5. width of a proteinase enzyme
6. length of a dust mite
7. visible light spectrum
8. length of an amoeba
9. thickness of a sewing thread
10. diameter of a ribosome
11. thickness of a staple
12. width of a water molecule
13. width of a bacterium
14. length of an apple seed
15. diameter of a virus
16. length of a human muscle cell
17. wavelength of visible light
18. length of a human muscle cell
19. diameter of a carbon nanotube
20. size and scale challenge
21. diameter of a nitrogen atom
22. diameter of a nitrogen atom
